

JOSEPH CHARITABLE JR.

COMPUTER SCIENCE MAJOR

Computer Science student at Southern New Hampshire University with hands-on experience in Python, Java, C++, SQL, and cybersecurity fundamentals. Skilled in problem-solving, systems thinking, software development, and technical communication through academic projects and self-driven development work. Passionate about software engineering, cybersecurity, and building efficient technical solutions. Seeking internship or entry-level opportunities in software development, cybersecurity, or IT.

EDUCATION

Southern New Hampshire University (SNHU)

Bachelor of Science in
Computer Science
Expected Graduation:
December 2027
GPA: 3.985

RELEVANT COURSEWORK

- Python Programming (IT-140)
- Java / Object-Oriented Programming (IT-145)
- Programming Languages / C++ (CS-210)
- Database Management (DAD-220)
- Software Development Lifecycle (CS-250)
- Systems Analysis & Design (CS-255)
- Discrete Mathematics (MAT-230)
- Applied Statistics for STEM (MAT-243)
- Operating Platforms (CS-230)
- Cybersecurity Foundations (CYB-200)
- Data Structures & Algorithms (CS-300)
- Software Security
- Secure Coding

ADDITIONAL INFORMATION

- Strong interest in cybersecurity, software engineering, and secure coding practices.
- Experience working independently on technical projects and learning new technologies.
- Actively building a professional GitHub portfolio and expanding technical skillset.

WORK EXPERIENCE

Walt Disney World – Horticulture

February 2022 – Present

- Maintain landscaping operations across high-traffic guest environments while ensuring quality and efficiency standards.
- Apply problem-solving and attention to detail to identify and resolve maintenance issues.
- Work within fast-paced team environments requiring communication, organization, and adaptability.
- Consistently manage responsibilities while balancing a full-time academic schedule.

Granny Nannies – Home Health Aide

February 2024 – Present

- Provide reliable support and care through effective communication, organization, and time management.
- Adapt quickly to changing situations while maintaining professionalism and attention to detail.
- Demonstrate critical thinking and interpersonal skills in client-focused environments.
- Maintain accurate documentation and follow structured procedures consistently.

TECHNICAL SKILLS

- Languages: Python, Java, C++, SQL, HTML, CSS
- Tools & Platforms: Git, GitHub, Eclipse, MySQL, VS Code
- Concepts: Object-Oriented Programming, SDLC, Database Design, Cybersecurity Fundamentals, Problem Solving, Debugging, Systems Analysis

PROJECTS

Password Strength Checker | Python

GitHub: github.com/JosephCharitableJr/password-strength-checker

- Developed a cybersecurity-focused Python application that evaluates password strength using validation logic and regular expressions.
- Implemented checks for password complexity, character variety, and security best practices.
- Strengthened understanding of secure coding principles and input validation.

Python Adventure Game | Python

GitHub: github.com/JosephCharitableJr/python-adventure-game

- Built a text-based adventure game using Python dictionaries, loops, functions, and inventory tracking.
- Designed game logic with room navigation, item collection, and win/loss conditions.
- Applied problem-solving and debugging skills to improve user interaction and game functionality.

Personal Portfolio Website | HTML/CSS

GitHub: github.com/JosephCharitableJr/personal-portfolio-website

- Designed and deployed a personal portfolio website using HTML and CSS.
- Showcases technical projects, coursework, skills, and professional links.
- Published using GitHub Pages for live deployment and version control.
